ENJOY YOUR VOYAGE

Relax, lie back and feel the tranquility in every fiber of your body. Now let the world come to you. With an elegant and easy to use remote, you can control your movies, music, TV, radio and internet; you can turn up the air-conditioning, draw the curtains/blinds and turn on the lights, when the sun sets in the horizon. Your LANTIC Yacht Entertainment System combines the latest technology with a modern user friendly design, creating a powerful and unique yacht and entertainment control system, which gives you easy access to a world of opportunities. ENJOY your voyage...

Entertainment

Be entertained whenever you have the time and desire for it.

- Capacity for more than 10,000 CD's and up to 500 DVD's.
- Allows for multiple users independently
- Individuals can choose to set up their own menus.

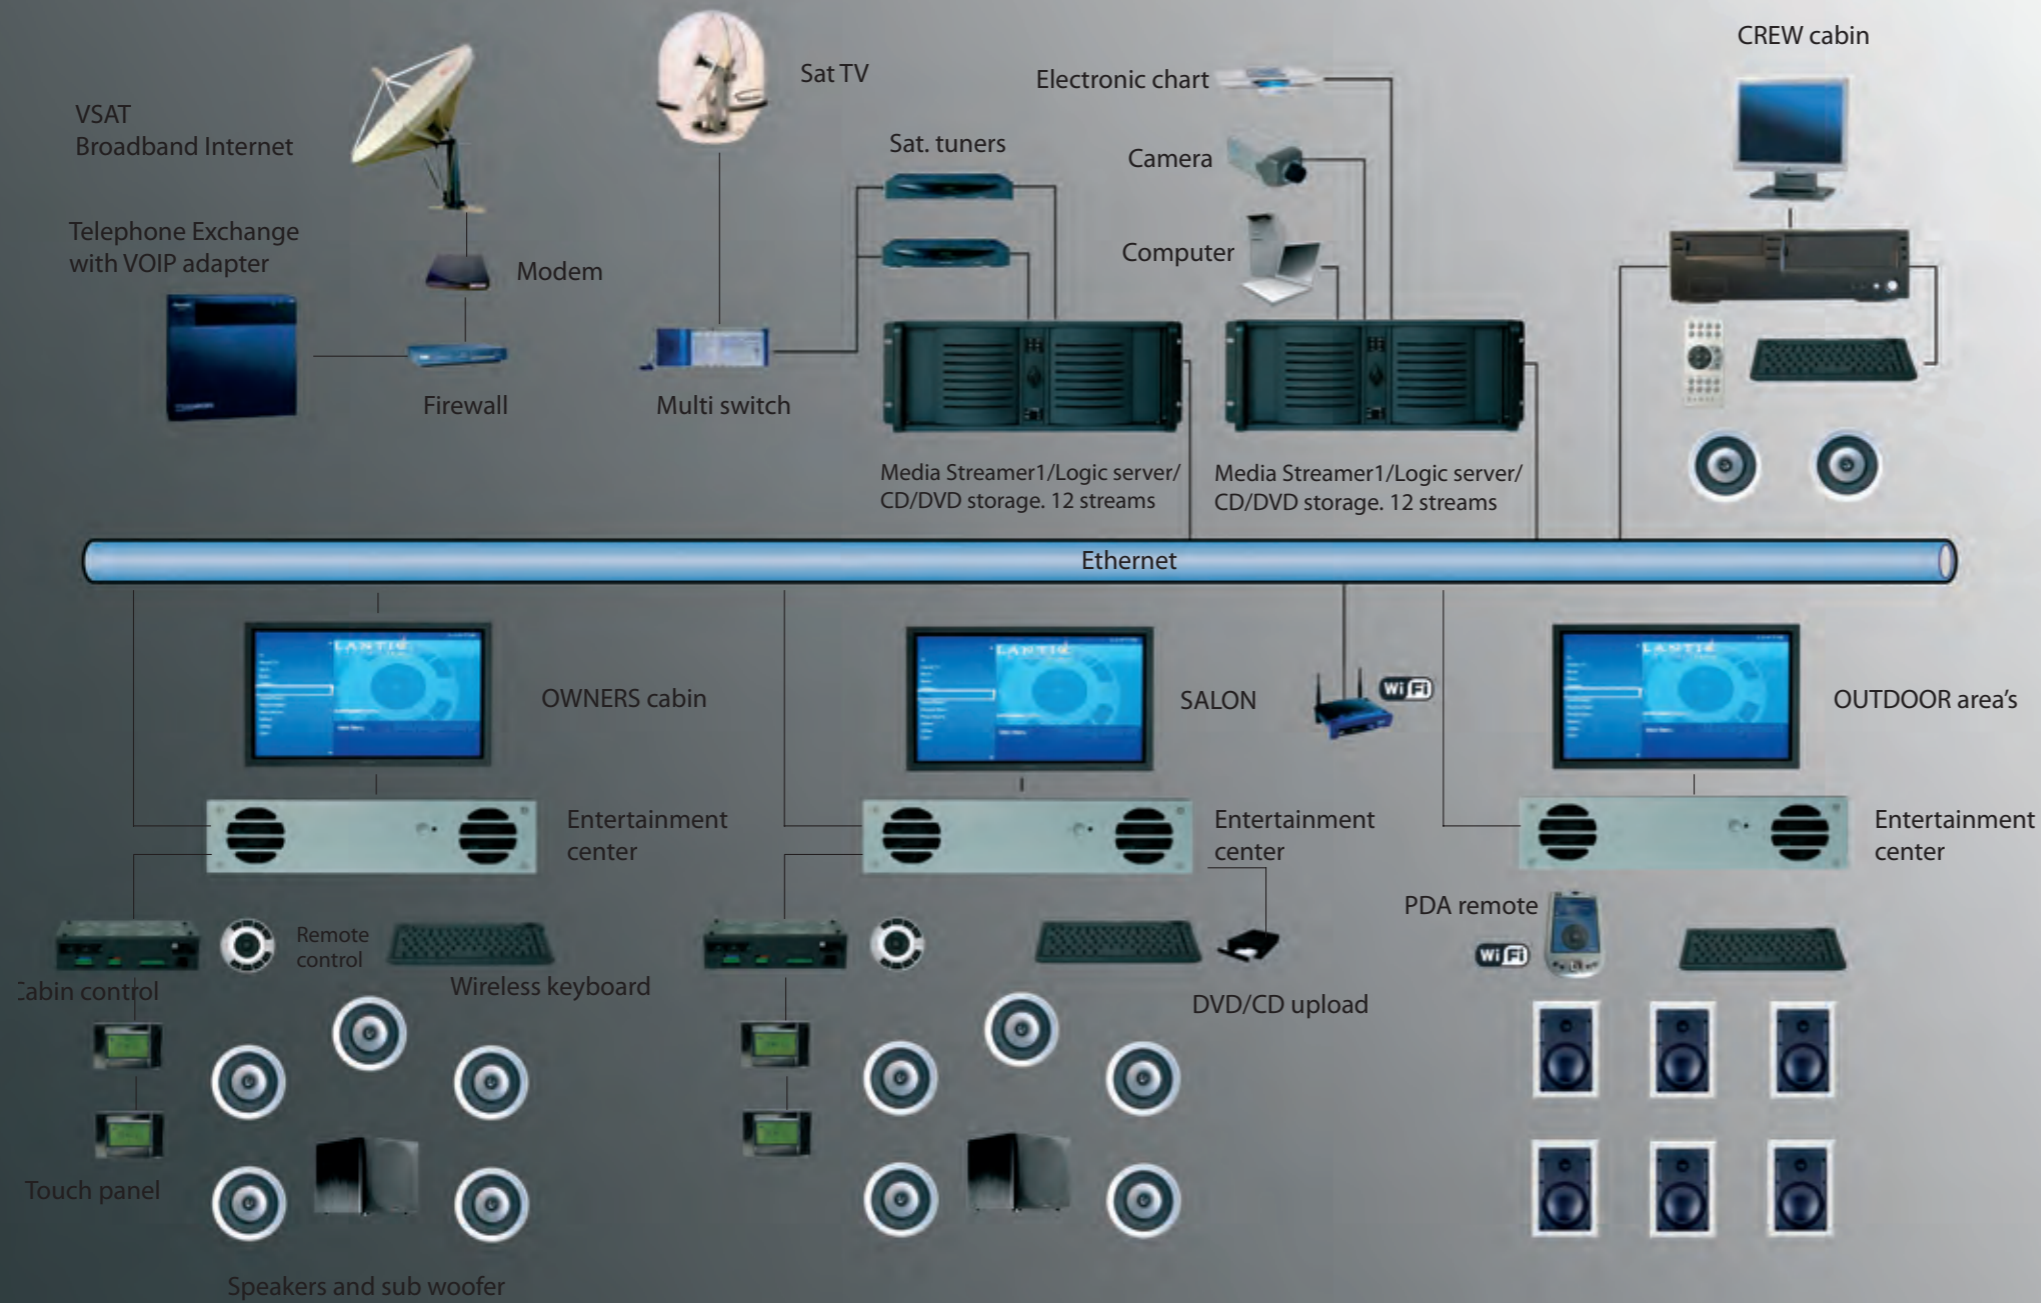

6

Be entertained whenever you have the time and desire for it - With a touch of a button you can rapidly and independently, throughout every cabin of your yacht, get whatever movie, music and ambience you desire, set a mood with your preferred lighting and control curtains, blinds and cabin temperature.

Designed with flexibility in mind, Lantic Systems provides a networked multi-user environment. Enjoy your favorite TV- or radio program, latest news, music or movies with your LANTIC Yacht Entertainment System. The easy user interface makes it a pleasure to seize the moment with guests and friends, whenever you want. Two clicks of the remote control and you have chosen your favorite music and subdued the lights for the right mood. Compose your personal menu of programs, movies, music and pictures. It is as easy as choosing preferred websites. The menu is your direct way to the latest sports or the newest Thursday night concert on the radio or what ever you may prefer.

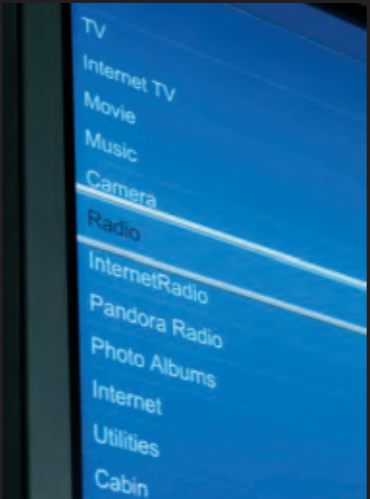

7

- Always turned on for you...
- Controls and dims light zones on your entire yacht.
- Pulls and draws curtains.
- Controls temperatures in the cabins.
- Provides surveillance of your yacht.

With the Lantic touch panel on the wall, you can quickly operate lights, curtains, room-temperature and choose the music stored on the large media server.

The entire LANTIC Yacht Entertainment System includes entertainment centers, cabin control units, touch panels, remote controls, wireless keyboards and, if desired, a media server with large storage capacity. This will cover your needs in entertainment and information in every cabin you wish, as well as controlling lights and heat all over the yacht.

There are numerous additional options: Video surveillance, alarm, access control, additional speakers etc. Custom solutions exactly match your needs and desires. Menus are set up individually and can be easily changed to suit your desire. LANTIC'S online service and updating of software ensure that your system is always current and running.
